

IMAGINiT Technologies to Host Revit Rumble for Autodesk Revit Architecture Users

***Members of the Portland Architectural Community Convene at AIA's Center
for Architecture to Test their Revit Skill Set***

Mississauga, ON, June 1, 2009 – Rand Worldwide®, a global leader in providing technology solutions to organizations with engineering design and information technology requirements, announced that its IMAGINiT Technologies division will host a Revit Rumble on June 12, 2009 at the American Institute of Architects (AIA) Center for Architecture in Portland, OR.

The Revit Rumble encourages members of the Portland architectural community to demonstrate their skills using Autodesk Revit Architecture software in a competition against their peers. Contestants will have the opportunity to prepare for the 40 minute quiz by working with IMAGINiT application engineers prior to the quiz session. In preparation, IMAGINiT will also provide contestants the opportunity to access ProductivityNOW Solo - IMAGINiT's online support portal that provides assistance with installation, access to technical tips, and answers to questions via online chat, phone or email.

This event is intended to be a fun way for the Portland architectural community to come together to showcase their in-depth knowledge of the Autodesk Revit product. It is also an opportunity for local architectural firms to see how their employees stack up against the competition. The event culminates with five winners and a grand prize winner who will win a Wii as well as the opportunity to tout his/her claim to fame in an upcoming AIA publication.

"We encourage everyone to have fun with this competition. For Revit users it is a great way to demonstrate their expertise to the architectural community and build their own brand as an extreme Revit user. I think architectural firms will also benefit by seeing the talent within the community and how their in-house skills stack up comparatively," explains Ken Klein, Regional Manager. "We encourage members of the architectural community to stop by to cheer on their peers or employees, grab a bite to eat and if they are up for the challenge, to take the quiz themselves. It's a fun way to spend your lunch hour."

The event will be held at the Portland AIA's Center for Excellence located at 403 NW 11th Avenue, Portland, OR 97209. For more information on how to participate in this event, please visit: www.rand.com/imaginit/PortlandRumble

About IMAGINiT Technologies

IMAGINiT Technologies, a Rand Worldwide Company, is a leading provider of design and engineering solutions to the building, manufacturing and infrastructure, media and entertainment industries. With over 40 offices in North America and Asia-Pacific, IMAGINiT is a leading provider of Autodesk software solutions and the largest North American Autodesk Authorized Training Center (ATC) partner. IMAGINiT delivers knowledge, expertise and design processes to clients through proven technical support, training and consulting services. Our locations are supported by a vast pool of engineering resources that are focused on developing real-life business solutions for their local clients. For more information please visit www.rand.com/imaginit.

About Rand Worldwide

Rand Worldwide is one of the world's leading providers of professional services and technology to the engineering community, targeting organizations in the building, infrastructure, and manufacturing industries. Rand enables its customers to improve their competitiveness, productivity, and profitability by enhancing key aspects of their Product Lifecycle Management (PLM) capabilities, including planning, development, and management. As one of the leading technology independent systems integrators in the world, Rand Worldwide operates in 50 sales and client service centers globally.
